

Website Proposal

Hello everyone: We have been running on Joomla for several years. I believe it was 2008 that Fred set it up. Fred trained me in the program and I have been managing the site as best as I can for several years, since 2015, I believe. Fred helped me where needed.

Fred passed away last December so I no longer have his support.

Almost everyone has problems finding the information that they need/want and also have problems entering and updating events on the Website.

So, we formed a committee to look at revamping the website. The Committee has been working on this in hopes to have it up and running ASAP.

We have several options; most are out of our range in price.

We had an offer to rebuild the site onto WordPress for \$7500, way too high. Several of the prices were about \$4000.

So here are the best 4:

One for \$1200, and \$1200 a year to maintain.

One for \$1900, and that would cover one year, with full ownership by CSSDA after that.

One for \$2000, same as above

Then one for \$1300 and same as above.

Anyways, the one for \$1300 is the one I would like to go with. Here is what they are offering and what we need

The company is called Website Feast and have done several sites to include

<https://www.n10dancestudios.com/index.html>

<https://livelivelsquaredance.com/>

<https://arthurmurraylive.com/>

Below is what they are offering and what we need I will put in red next to them then at the end I will finish with what we need if any.

Scope of Work (Package)

.....
Payment Gateway Integration (Stripe, PayPal, Apple Pay, etc) (At this time we don't need this but might in the future to take donations etc.)

Contact/Query Form (This would replace the current support portal that really isn't working)

Sliding Banner & Hover Effects (At this time not needed but again could be helpful)

Website Favicon Design

Google Friendly Website

Complete W3C Certified HTML

Dedicated Project Manager

100% Ownership Rights (This is needed for us to keep control)

100% Satisfaction Guarantee

100% Money-Back Guarantee*

No Monthly or Hidden Fees

Unlimited Pages Website Design (This is needed so we can add pages for clubs as needed)

WF works closely with clients for website designing and development solutions to achieve business goals. By back and forth communication

Custom, Interactive & Dynamic Web Design
10 Stock Images
10 Banner Designs
Social Media Integration
Search Engine Submission
Complete W3C Certified HTML
Industry specified Team of Award-Winning Designers and Developers
Complete Deployment
Training Session after Deployment

So, the only things not covered here, but was covered in the Chat which I do have a copy of. Are

1. Calendar: Needs to be able to be updated from the front end by signed in people only.
2. Documents: We need an area(s) for documents for the CSSDA and Clubs/Councils
3. Need Member only area(s)

This was all agreed to when I talked to them and also on the example sites.

So due to the time constraint that we have, I am doing an email proposal in hopes to get this approved and started by April.

So here is what I'm proposing.

That we approve the Revamping of the Current website to a more user-friendly site. That we approve a budget of \$1300.00 for Ervin to have Website Feast build the new site. Once the site is built, the site would be turned over to CSSDA to maintain.

From: Ken Tucker <tucker_kw@yahoo.com>

Subject: Re: Website Proposal

I will make a motion to accept this proposal and move forward with the funds necessary to update/change our CSSDA website.

Thanks,
Ken
